## **Dusk (www.dusk.it)**

*In March 1991, with a photocopied issue #0, a simple fanzine was founded in Benevento, as in other countries also was happening.*

*One quarter of a century later, Dusk has turned into a real lavish magazine, published 83 times (so far!), while all the other countries fanzines, one by time, stopped the publication.*

*So, since nearly 15 years Dusk is the one and only Genesis printed magazine worldwide. With the constant collaboration of all eras Genesis members (Tony Banks, Mike Rutherford, Phil Collins, Peter Gabriel, Steve Hackett, Anthony Phillips and Ray Wilson), each four months a new 68 pages (both colour and b/w) mag reaches the fans scattered in the whole country and even abroad.*

*The founder and director of Dusk, journalist Mario Giammetti who also wrote 14 Genesis and related books, will talk of this enterprise in Naples.*

*The event, also featuring books presentations and a Mad Men Moon (one of the best Italian Genesis tribute bands) concert, will have an exceptional testimonial: Steve Hackett, legendary Genesis early era guitarist, who still brings on a very prolific solo career.*

*During the event, Steve Hackett will also receive a commemorative plaque from the Assessor Nino Daniele.*
